

SELF TALK - Powerful Tool

Our self-talk can either save or destroy our lives, bring freedom or trap us, bring new possibilities or blind us from opportunities.

i talk to the people i love”*

TRASH CAN - Delete Negative Thoughts / Talk

What self-talk or thoughts are on replay in your mind at the moment?

If they are positive and helpful, they can be added to your playlist.

If they are negative or unhelpful, delete them – write them in the trash can. These do not belong in your mind or vocabulary!

Every time they come back, throw them out again.

Do not let them stay on repeat in the playlist of your mind / self-talk.
